

DHEA

MEN & WOMEN ALIKE FIND THE BENEFITS OF DHEA

- SUPPORTS FREE TESTOSTERONE LEVELS FOLLOWING HIIT*
- HELPS SUPPORT HEALTHY JOINTS & BONE DENSITY*
- POSITIVE EFFECT ON MOOD, ENERGY, & MEMORY*

RESEARCHERS CONCLUDE DHEA SUPPLEMENTATION MAY HAVE SIGNIFICANT BENEFITS RELATED TO HIIT ADAPTATION

With the popularity of high intensity interval training on a rise (HIIT), a new study concludes "acute oral DHEA supplementation can help support healthy free testosterone levels in middle-aged men and prevent it from declining during HIIT."

DHEA BENEFITS MEN AND WOMEN ALIKE

According to the world-renowned Mayo Clinic, there is strong scientific evidence that DHEA benefits men and women alike as it can help support healthy bone density, mood and weight management. Moreover, the famed clinic says good scientific evidence suggests that DHEA Supplementation can enhance adrenal health as well as sexual vigor.*

WHAT IS DHEA?

The scientific name for DHEA is dehydroepiandrosterone. In the adrenal glands it is produced from the precursor pregnenolone. Studies show that with age DHEA levels often decrease considerably. When used as recommended, DHEA supplementation can play a role in the restoration and maintenance of healthy biological levels of DHEA as well as testosterone. SAN's DHEA does not contain wild yam extract.*
