

AMINO ACID 5000 TABLETS

IMPROVE AFTER WORKOUT MUSCLE RECOVERY WITH FREE FORM AMINO ACIDS

- EFFICIENT AMINO ACID UPTAKE FOR ATHLETIC PERFORMANCE*
- LOW WASTE, HIGHLY BIOAVAILABLE AMINO ACID MATRIX
- AIDS POST-WORKOUT MUSCLE RECOVERY*
- HELPS INCREASE LEAN MUSCLE MASS WHILE BURNING BODY FAT*
- SUPPORTS ENDURANCE, PERFORMANCE & STRENGTH IN ATHLETES*

PROMOTE PROTEIN SYNTHESIS AFTER YOUR WORKOUT

Your muscles take the brunt of the onslaught from intense strength training. The muscle damage that occurs during and after your workout thrusts your body into a state of protein breakdown, known as catabolism.

That's why SAN sports scientists created AMINO ACID 5000. It's a formula designed with the most bio available Free Form Amino Acids coupled with powerful Insulin Mimicking properties to speed delivery quickly to the muscle cells, halt catabolism and promote protein synthesis.*

AMINO ACID 5000 provides essential Branched Chain Amino Acids and Essential Amino Acids which, prepares your muscle tissue before and recover after your intense workouts. Taken before, during and after your workouts, AMINO ACID 5000 will fuel your workouts, stimulate protein synthesis to improve recovery and move you from a catabolic state into a natural anabolic state.*

Strength coaches recommend Free Form Amino Acids during training to ensure amino acid uptake in the circulation within 15 minutes to: fight fatigue, improve recovery and maximize performance after the intense training.*

MUSCLE RECOVERY

AMINO ACID 5000 boasts a 3:1:1 BCAA ratio of L-Leucine, combined with Essential Amino Acids L-Lysine, L-Threonine, L-Methionine, L-Tryptophan, L-Cysteine in a 5,000 mg dosage (per 5 tablets). The addition of Vitamin B1 (as Thiamine), B3 (as Niacin), B12, Magnesium (as Magnesium Citrate), Calcium (as Calcium Carbonate) and Zinc (as Zinc Gluconate) are designed to support the nutrient uptake and bio-availability.*

HARNESS THE POWER OF MIMICKING INSULIN

San included Glucose Disposal Nutrient Partitioning Complex to harness the power of mimicking insulin by optimizing your body's response to naturally-produced insulin resulting in a leaner, more muscular and healthy physique.*

AMINO ACID 5000 contains Banaba Leaf Extract and Decaffeinated Green Coffee bean extract to ensure that carbs are stored as glycogen to fuel hard-working muscles instead of fat.*

Banaba Leaf Extract – (AKA Corosolic acid), a triterpenoid found in the leaves, helps support healthy blood sugar levels and maintain normal range by stimulating glucose uptake. In a study of humans with banana extract, showed it supported healthy blood glucose levels. It is considered a natural plant that mimics insulin, can be taken orally, and has no adverse effects, according to Japanese research.*
