- INCREASED CELLULAR HYDRATION & ANTI-FATIGUE MATRIX\*

### FREAKISH FAT LOSS TO REVEAL THE STEEL!

Fasted cardio is one of the most demanding activities for hardcore athletes and fitness enthusiasts. Hunger pangs and low energy force you to push boundaries in order to dominate. BCAA BOOSTED™ is SAN Nutrition's ultimate muscle-defense, energy-boosting, and fat-melting solution. Performing fasted cardio first thing in the morning on an empty stomach allows you to dive right into the highest fat-burning potential, and BCAA BOOSTED™ gives you the motivation, discipline, and focus needed to get the job done every time you hit the gym.\*

BCAA BOOSTED™ provides a zero-calorie Natural Energy Matrix that gives you the drive you need to push through those grueling, early-morning fasted-cardio sessions, and it is also fortified with thermogenic compounds that ramp up the fat-burning effects. The B-Alanine (CarnoSyn®) in BCAA BOOSTED™ is a proven lactic acid buffer and overall great ergogenic – allowing you to be sore free each and every session.\*

Hydration is crucial to all systems in your body. The advanced electrolyte complex in BCAA BOOSTED™ ensures that you're completely hydrated during your rigorous fasted-cardio sessions. Proper hydration is key to recovery, muscle energy, and the transportation of nutrients through your system (ex BCAAs, Glutamine and CarnoSyn®) and into the muscle cells where they are needed most.\*

### FASTED CARDIO ALLOWS YOU TO “BE HUNGRY”

Fasted cardio demands a “Be Hungry” attitude, and BCAA BOOSTED™ delivers the extreme drive and guaranteed muscle preservation that gives you the confidence to stay disciplined and focused. SAN Nutrition shatters all previous barriers and guarantees the dramatic results you never before thought possible before BCAA BOOSTED™ arrived to save the day!\*
